Summary

A motivated professional with more than ten years of experience in the customer service industry. Eager to join a dynamic web development team and to engage in a variety of subjects and several tasks. Always with a good spirit and open to learn new skills and techniques .

Education

"I'm constantly keeping up with the latest trends online, devouring books, and engaging with academic materials to expand my knowledge. I attend lectures online, follow tutorials, and practice hands-on exercises and projects from top online resources in frontend and backend programming, such as FreeCodeCamp, HackerRank, FrontEnd Mentor, and w3resource."
